GUEST HOUSE

2027 Skilled Trade & Project Donation Opportunities

Foundation Partner Overview

Friends of Guest House has a variety of facility improvement projects that offer meaningful opportunities for contractors, vendors, and industry partners to donate skilled labor, materials, equipment, or complete project services. The opportunities below focus on projects outside of the Day of Giving scope and are organized by indoor and outdoor needs.

INDOOR PROJECT OPPORTUNITIES

- **Painting & Wall Repairs** – Interior painting, patching, wall repairs, and refreshing bedrooms, basement areas, and common spaces.
- **Flooring** – Carpet replacement, new flooring installation, flooring repairs, and correction of existing flooring issues.
- **Doors & Carpentry** – Replacement of interior doors, cabinetry modifications, and other general carpentry needs.
- **Plumbing** – Sink and faucet repairs or replacements, toilets, shut-off valves, and other plumbing repairs.
- **HVAC** – HVAC system evaluation, repair or replacement, vent cleaning, radiator replacement, and system maintenance.
- **Appliances** – Refrigerators, ovens/stoves, washers, dryers, and ice maker repair or replacement.
- **Interior Renovations** – Modification or improvement of existing spaces, including converting underutilized areas into functional resident spaces.

OUTDOOR PROJECT OPPORTUNITIES

- **ADA Accessibility** – Full replacement of an ADA ramp and associated accessibility improvements.
- **Decks, Porches & Railings** – Deck and porch repair or replacement, new railings, step railings, and related exterior carpentry.
- **Exterior Painting & Maintenance** – Exterior and porch painting, power washing, and related exterior maintenance.
- **Paving** – Paving and improvement of the existing gravel parking area.
- **Roofing & Gutters** – Roof and gutter inspection with potential repair work.
- **Windows & Exterior Doors** – Window replacement and replacement of exterior entry doors.
- **Fencing & Exterior Structures** – Fence repairs, shed repairs, and other exterior structural improvements.
- **Drainage & Water Management** – Evaluation and correction of drainage and flooding issues.
- **Outdoor Improvements** – Permanent property improvements that enhance exterior resident areas and overall usability.

HOW PARTNERS CAN HELP

Companies can participate at many levels—from donating materials or equipment, to providing skilled labor, sponsoring project costs, or taking ownership of a complete improvement. These needs create opportunities for HVAC, plumbing, electrical, flooring, painting, roofing, paving, carpentry, general construction, accessibility, window and door, and other skilled-trade partners to make a direct impact.

Every donated service, material contribution, or completed project helps extend the Foundation's impact.
